

FLEXIBLE FLUFF

Dynamic and adaptable support.

Hysteresis Curve demonstrates the force-deflection of the sample tested.

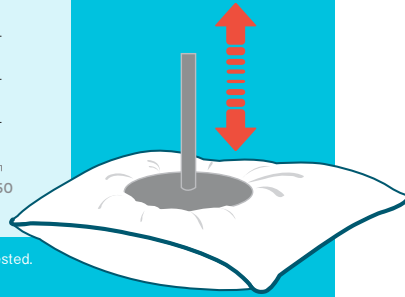

- Comparable product A
- Comparable product B
- Suprelle® Flex

Compression testing revealed that the Suprelle® Flex pillow has greater depth of compression and the fastest recovery time after compression than comparable fiber filled pillows.

*Source: laboratory test 2017 ADVANSA, comparison with reference pillows of the same weight and with fibers of similar fineness.

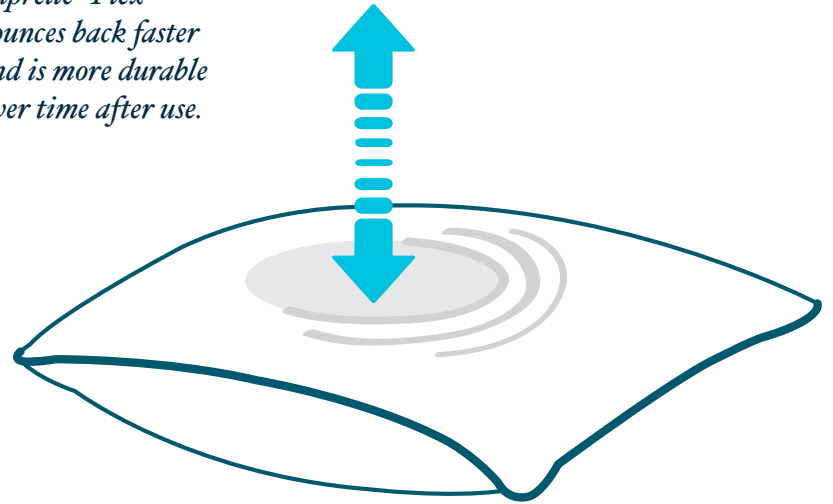

Tested by the Forschungsgesellschaft für Industrieanthologie GmbH, Kiel 2017

The volume remains stable over a long period of time and offers good support despite its softness.

Suprelle® Flex has high-tech filling fibers with proprietary fiber coating and crimp that allows for maximum fluffability and significant reduction in break down over time. In addition, this fiberfill remains durable and lofty, wash after wash.

Suprelle® Flex bounces back faster and is more durable over time after use.
